

Lazar Cap Elevator Sorter

The Lazar Cap Elevator Sorter Model LCES delivers properly oriented caps via a discharge chute on demand. The caps are elevated and oriented on a special, custom designed belt from the floor level bulk cap hopper.

- Extended Chute that can be integrated into any line
- Chain widths available from 6 to 30 inches
- Speeds ranging from 25 to 600 caps per minute
- Bulk cap hopper from 5 to 11 cubic feet (depending upon conveyor and cap dimensions)
- All Stainless Construction and FDA approved plastics
- NEMA 4 control panel
- Fiber optic sensors for feed control
- Easy "No Tool" adjustable polycarbonate plastic cap guards
